

WOOD VENEER

BIRD'S-EYE MAPLE

ORIGIN

*Acer Saccharum* or *Bird's-Eye Maple's* tiny knots in the grain resemble a bird's eye. The figure is caused by unfavourable growing conditions for the tree when it attempts new buds for sunlight. The new shoots are aborted with the lack of sunlight, and the small knots or 'bird's eyes' remain.

CERTIFICATION

We are FSC (Forest Stewardship Council) certified.

LICENSE  
FSC - C103157

CERTIFICATE CODE  
SGSNA - COC - 006292

SPECIFICATIONS
